T-NEX REGIONAL OUTLINE (FY04)

- **Northeast (1,2,& 5)**
- **Southern (3,4, & 6)**
- **Central/West (Central, 9,10,11,12, AK)**

Transitioning Alignment for TRBOs Under T-NEX

- **Deputy Surgeon's General for the Army, Air Force, and Navy signed "Authority for Governing the Tri-service Regional Logistics Support Program" (RLSP) for FY 04.**
- **Letter places responsibility for RLSP oversight and program management under the designated Senior Multi-service Market Managers (MSMM).**
- **The T-NEX establishes the MSMM, which we adopt as the governing authority for the RLSP and TRBOs.**

ADVANTAGES OF TRBO REALIGNMENT

- **Senior Multi-Service Market Manager can extend and leverage standardization as part of master business plan in marketing beyond boundaries**
- **Medical Surgical PV Gen III & TRBO contracts are parallel for FY06 revision to match requirements**
- **Clinically led program with clinician/logistician involvement in standardization process and compliance**
- **Provides Cdrs flexibility and independence to make optimum decisions to serve the population**
- **Fosters the partnering between current TRBO structure with the projected MSMA**
- **PV distribution boundaries remain intact with Senior Multi-Service Market Manager and TRBO leadership alignment**

POTENTIAL DISADVANTAGES

- **Loss of Lead Agents leaves TRBOs with no designated regional leadership**
- **Expected T-NEX transition issues must mature prior to any major TRBO contract revision**
- **Unplanned TRBO realignment will be disjointed with Med/Surg PV distribution contract boundaries**
